

PROJECT HIGHLIGHT:

Wagoner Public Schools | Wagoner, OK

Rapid Response and Rebuild for a Critical Educational Facility

When another contractor's error caused a catastrophic structural collapse at Wagoner Middle & High School, Compass navigated the complex path from disaster to classroom - coordinating damage evaluation, design, and reconstruction to bring students home.

Partnering with Stenstrom Schneider, Inc. for architectural excellence, we delivered the \$4.2M rebuild two months ahead of schedule, ensuring every student returned to a safe, fully restored campus for the 2022-2023 school year.

"When an unqualified contractor removed a load-bearing wall and collapsed the cafeteria, gym and six classrooms, we stepped in to stabilize, rebuild and return the school to full operation by the next school year - months ahead of schedule. The outcome is a direct reflection of our team's craftsmanship and dedication under pressure."

CHRIS WINDER
CRO + Managing Member

- ✓ Middle/High School suffered major structural collapse after unqualified contractor error
- ✓ Compass managed damage evaluation, design, engineering & repairs
- ✓ Partnered with Stenstrom Schneider, Inc. for architectural/design/engineering
- ✓ Completed 2 months early, enabling full student return for 2022-2023 school year
